The formal report on voting results with respect to all matters voted upon during the annual meeting of shareholders will be filed with the regulatory authorities shortly.

About Innergex Renewable Energy Inc.

The Corporation is an independent renewable power producer which develops, acquires, owns and operates hydroelectric facilities, wind farms and solar farms. As a global corporation, Innergex conducts operations in Canada, the United States, France and Chile. Innergex manages a large portfolio of assets currently consisting of interests in 66 operating facilities with an aggregate net installed capacity of 1,988 MW (gross 2,888 MW), including 37 hydroelectric facilities, 25 wind farms and four solar farms. Innergex also holds interests in seven projects under development with a net installed capacity of 870 MW (gross 948 MW), two of which are currently under construction and prospective projects at different stages of development with an aggregate gross capacity totaling 7,767 MW. Respecting the environment and balancing the best interests of the host communities, its partners, and its investors are at the heart of the Corporation's development strategy. Its approach for building shareholder value is to generate sustainable cash flows, provide an attractive risk-adjusted return on invested capital and to distribute a stable dividend. Innergex Renewable Energy Inc. is rated BBB- by S&P. The Corporation also owns an equity interest in two geothermal power generation plants in Iceland for which a sale agreement was reached in March 2019 and should be completed by the end of the second quarter of 2019.
